

**REMARKS**

Reconsideration and allowance are respectfully requested.

Applicant appreciates the indicated allowability of claim 9. The amendments proposed in this Response address the issues on page 2 of the office action. No new matter has been added. Entry and allowance are requested.

Regarding the examiner's query about "IP54", it relates to "IEC 529" which is an international standard known in the state of the art.

Allowable subject matter of claim 9 has been added to claim 1 making claim 1 allowable. Therefore all other claims, being dependent on claim 1, are also allowable.

Nothing in the references, either singly or in combination, teaches or suggests the claimed features. Therefore, the references cannot anticipate nor render obvious the present invention as claimed.

Since Applicant has presented a novel, unique and non-obvious invention, reconsideration and allowance are respectfully requested.

Respectfully,
